ONCOLOGY  
THERAPEUTICS  
NETWORK

The Oncology  
Drug and Supply

Sourcebook

*For the Community-Based  
Oncology Practice*

Spring 1996

2300626

## Introductions to your new Sourcebook

Simple, easier to find, more complete

**NEW! Tabs for quick reference.**

**Your new Sourcebook is divided into four sections by easy to find tabs:**

- 1. *Oncology Product Lines***
- 2. *Chemotherapy Drugs***
- 3. *Drugs for Supportive Care***
- 4. *Supply Products***

---

### Oncology Product Lines

This section lists the product lines of Bristol Laboratories, Mead Johnson, Schering Oncology, Glaxo Wellcome and Chiron Therapeutics. See pages 2-8. See pages 4-5 for all your TAXOL needs.

---

### Chemotherapy Drugs and Drugs for Supportive Care

For ease of use, drug items have been consolidated into two sections:

***Chemotherapy Drugs and Drugs for Supportive Care.***

These sections are alphabetized by generic names and include important information on each item such as Brand Name and HCPCS Codes. See pages 9-21.

---

### Supply Products

The illustrated supply section makes it easy to select and order oncology supply items. Choose from a wide selection of items and multiple brands available to meet your needs. See pages 22-50.

2300627

## Earn Network Dollars Credit On All Purchases of These Quality Products.

PRODUCT ACCRUAL RATE	
VePesid For Injection	7% <b>Up by 2%</b>
Lyophilized Cytosan	2%
Mutamycin	4% <b>Up by 2%</b>
Rubex	5%

**NEW FOR 1996**

## Savings You Can Count On

The Network Dollars Program has been improved for 1996. Earn Network Dollars on your purchases of Rubex® VePesid® For Injection, Lyophilized Cytosan® and Mutamycin®

## Benefits For Your Practice

- Network Dollars offers additional savings to our competitive prices to help you reduce the total cost of your drug purchases.
- Network Dollars are easy to use. Network Dollars credits accrue over the course of the month and are automatically applied to individual invoices the following month.

## How Network Dollars Credits Are Applied

Your Network Dollars accrue each month in your personal Network Dollars account. They will be applied automatically in each new month (until they are used up) on orders from the more than 500 eligible products listed in the Sourcebook. Network Dollars credits are applied to individual line items on each invoice. Bristol Laboratories and Mead Johnson products, and items that Medicare and Medicaid do not reimburse, such as supplies, are not eligible.

- \* The Network reserves the right to revise the Network Dollars program at any time. Rates are valid through 7/31/96.
- \*\* Buyer acknowledges that it is responsible for fully and accurately reporting to the reimbursing agency any discounts described above on any item that is separately charged for payment under Medicare, Medicaid, or any other federally funded state healthcare plan. Buyer also acknowledges that upon request by the Department of Health and Human Services or state healthcare agency, it is responsible for providing the requesting agency with information regarding such discounts.

## NETWORK CONSULTING PROGRAM

**WOULD YOU LIKE TO INCREASE PHYSICIAN PRACTICE INCOME?**

**COULD YOUR PRACTICE BENEFIT FROM A DETAILED ANALYSIS OF REIMBURSEMENT AND OPERATIONS?**

**WOULD YOU LIKE YOUR PRACTICE TO OPERATE MORE EFFICIENTLY?**

## Learn How to Succeed and Get Results in an Ever-changing Healthcare Environment

To remain competitive, it is critical that medical practices operate efficiently. To help oncologists compete successfully in a changing healthcare environment, the Network has developed a comprehensive business management consulting program. Our consultants are from the healthcare industry with a background in nursing, accounting and healthcare administration and have a proven track record for improving office efficiencies. The consulting program offers three areas critical to the profitability of your practice.

- 1. Analysis of Oncology Coding and Billing Techniques**
  - Coding review to assure that the proper codes are being utilized
  - Fee analysis to assure that the proper charges are assigned to the correct code
  - Insurance billing and collection review and assistance
  - Computer systems selection, review and recommendations
- 2. Financial Management**
  - Financial analysis
  - Examination of expense items
  - Setting business goals and action plans
  - Referral development
  - Review of payer negotiations
- 3. Practice Operations**
  - Practice Work Flow
  - Ancillary Services
  - Patient Satisfaction
  - Team Building
  - Staffing Analysis
  - Strategic Planning

# TAXOL Administration With Non-PVC Sets

Contact of paclitaxel (TAXOL, Bristol-Myers Squibb) with administration sets, IV bottles, or IV bags containing PVC results in leeching of the plasticizer DEHP. Solutions of TAXOL should be prepared and stored in glass, polypropylene, or polyolefin containers. TAXOL should be administered using non-PVC containing administration sets, such as those which are polyethylene-lined, using an in-line filter with microporous membrane not greater than 0.22 microns. Refer to the TAXOL package insert for additional information. Below are three options for the administration supplies needed with TAXOL.

**NEW  
LOW  
PRICES**

## TAXOL NON-PVC ADMINISTRATION SUPPLIES:

		CATALOG NUMBER	UNIT PRICE
MOST ECONOMIC CHOICE	<b>OPTION A: SoloPak Administration Set</b>		
	Primary solution set w/non-DEHP tubing and 0.22 micron filter, vented	573-600	3.00
	<b>OPTION B: McGaw Administration Set</b>		
	Nitroglycerin set, vented	599-000	9.00
	Filter, in-line, 0.22 micron without lock for gravity administration	592-679	2.40
	<b>OPTION C: Abbott Administration Set</b>		
	Nitroglycerin set, vented	591-772	10.50
	Filter, in-line, 0.22 micron without lock for gravity administration	592-679	2.40

## CUSTOMER SUPPORT PROGRAMS

The **Proleukin® Reimbursement Hotline** provides reimbursement assistance to physician practices with information on how to file claims for Proleukin and support to those who have experienced a claim denial. You can access the hotline at 800-775-7533.

The **Aredia® Reimbursement Hotline** provides patients and providers with answers and assistance on reimbursement questions and concerns. For information contact 800-939-4242.

The **Chiron Therapeutics Nurse Network** was developed to help nurses administer Proleukin easily and safely in their offices. The program provides access to nurses nationwide who have extensive Proleukin administration experience and who are available for consultation. The Nurse Network can be accessed by calling 800-IL2-NURS (800-452-6877).

*Price Match:* The Network will match a published price on this item.

\*\* Please call for current pricing.

Chiron Therapeutics is a business unit of Chiron, which markets Proleukin® (aldesleukin), the first treatment for metastatic renal cell carcinoma, and Aredia® (pamidronate disodium) for hypercalcemia of malignancy and for moderate to severe Paget's disease. Aredia is manufactured by Ciba-Geigy. Chiron Therapeutics also markets a line of generic cancer chemotherapeutics for its joint venture with Ben Venue Laboratories of Cleveland, Ohio.

† Because Chiron Therapeutics cannot be responsible for proper storage conditions after purchase, this product may not be returned for credit.
